Did you know that...

- ... some languages have less than 3 vowels or more than 30 consonants?
- ... there may be up to 7 consonants in one syllable?
- ... there may be a special case for doing something without someone?
- ... English word order is not the most frequent?
- ... a protolanguage can be reconstructed?
- ... inflection and derivation are quite close to each other?

Introductory course to language typology

# Variability of languages in time and space

<https://ufal.mff.cuni.cz/courses/npfl100>

Tuesday 10:40-12:10, starting 1 Oct 2019  
 Institute of Formal and Applied Linguistics MFF UK  
 Malostranské náměstí 25, room S6
